

# Abdulrahman Husari

MSC.E COMPUTER SCIENCE AND ENGINEERING STUDENT

## Profile

A highly motivated final-year student in Computer Science and Engineering at Lund University. With a robust academic background and exceptional coding skills, I excel in critical thinking and am a quick learner. Adept at problem-solving and effective communication, I am eager to apply my diverse skill set in roles related to Software Engineering, AI, DevOps, or IT consultancy.

## Education

### MSC.E, Computer Science and Engineering, Lund University, Faculty of Engineering (LTH),

AUGUST 2022 — PRESENT

- Enrolled in the "Civilingenjör i Datateknik" program after transferring from Halmstad University.
- Credits from my coursework at Halmstad University have been applied towards my degree here.
- Focused on a variety of subjects such as Artificial Intelligence, Backend Development, Software Engineering, Leadership, Designing, Problem-solving, and Critical Thinking.
- Focused on core modules including Data Structures and Algorithms.
- Worked on multiple projects to put my coding and software engineering skills into practice.

### BSc, Computer Science and Engineering, Halmstad University,

JANUARY 2019 — JUNE 2022

- Completed three years of the "Civilingenjör" program before transferring to Lund University.
- Engaged in a blend of theoretical and practical courses in Computer Science.

## Courses

### Programming for Effective Problem Solving, Umeå University

JULY 2023 — AUGUST 2023

### Introduction to programming in Python, Borås University

JULY 2022 — AUGUST 2022

## Employment History

### IT Servicedesk Agent, TietoEVRY, Malmö

SEPTEMBER 2022 — PRESENT

- Served as first-line IT support, specializing in resolving software issues.
- Utilized various debugging tools and methodologies to troubleshoot technical problems.
- Delivered world-class customer service by effectively communicating complex technical information to non-technical users.
